## Brand Information & Biodynamic Farming

*Family Tradition ❖ Quality Wines ❖ Biodynamic Farming*

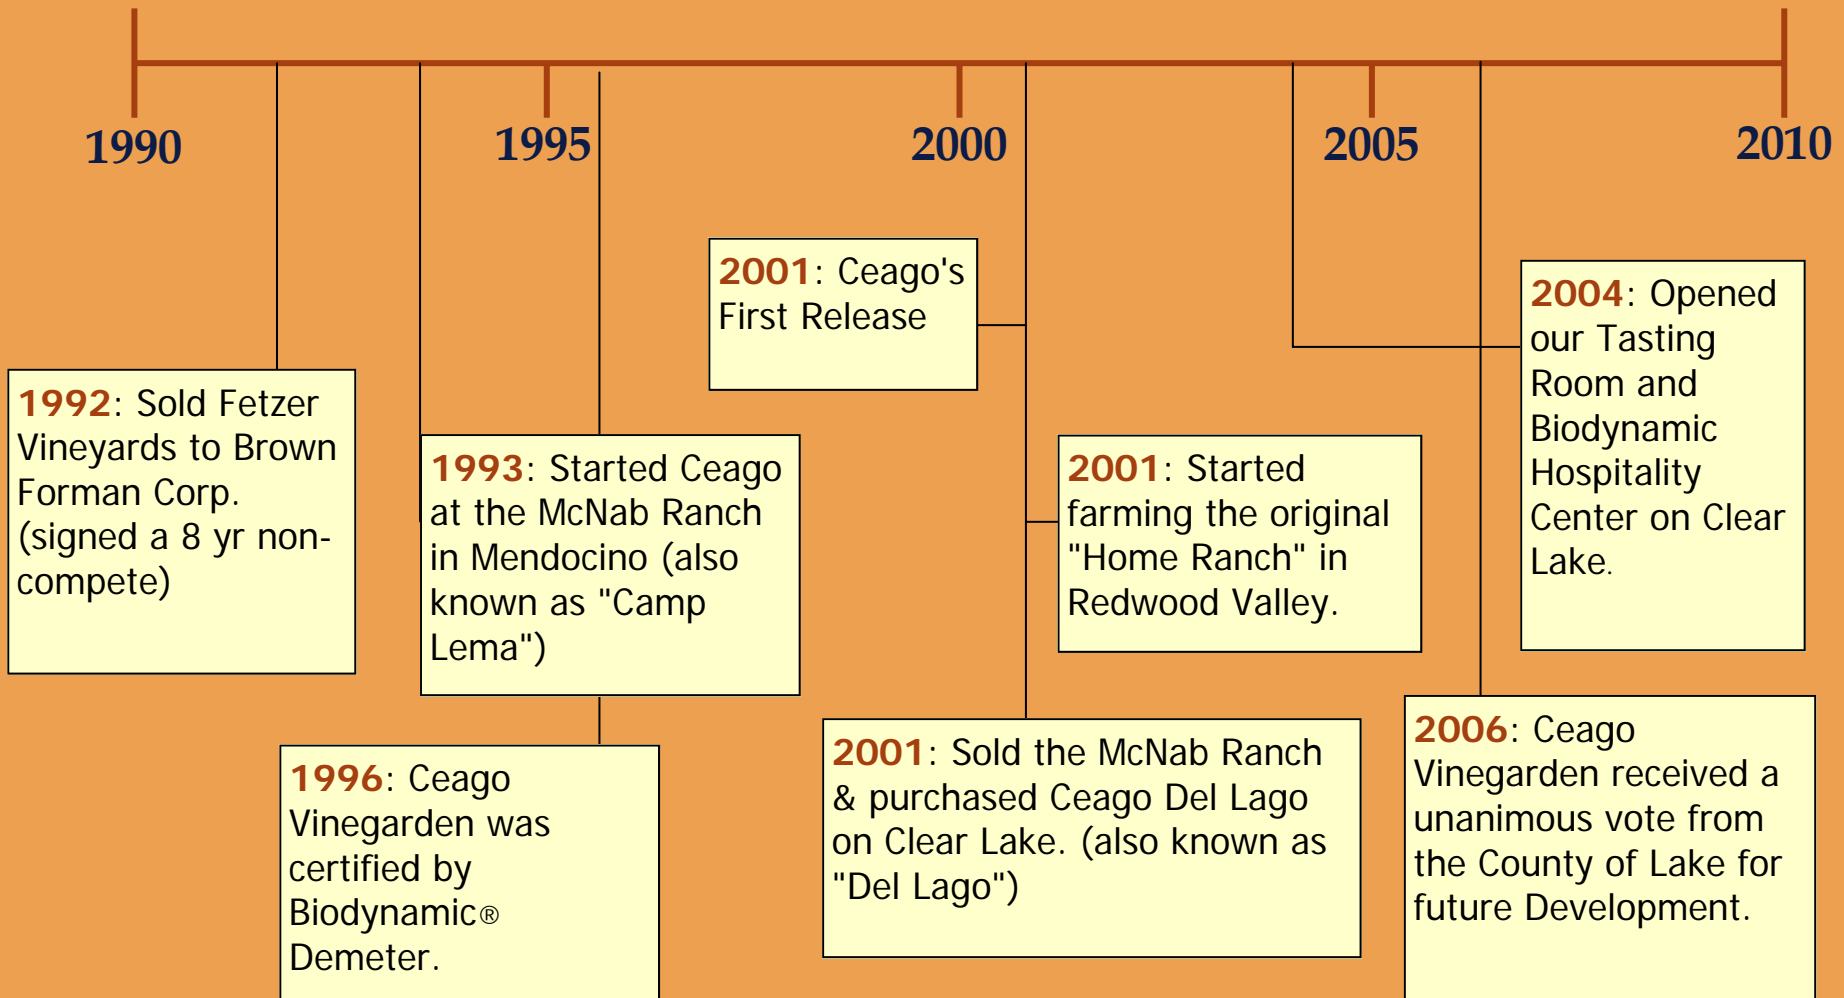

*At Ceago, our mission is to craft small lots of wine from estate grown organic and biodynamic grapes using the best of Old and New World winemaking techniques.*

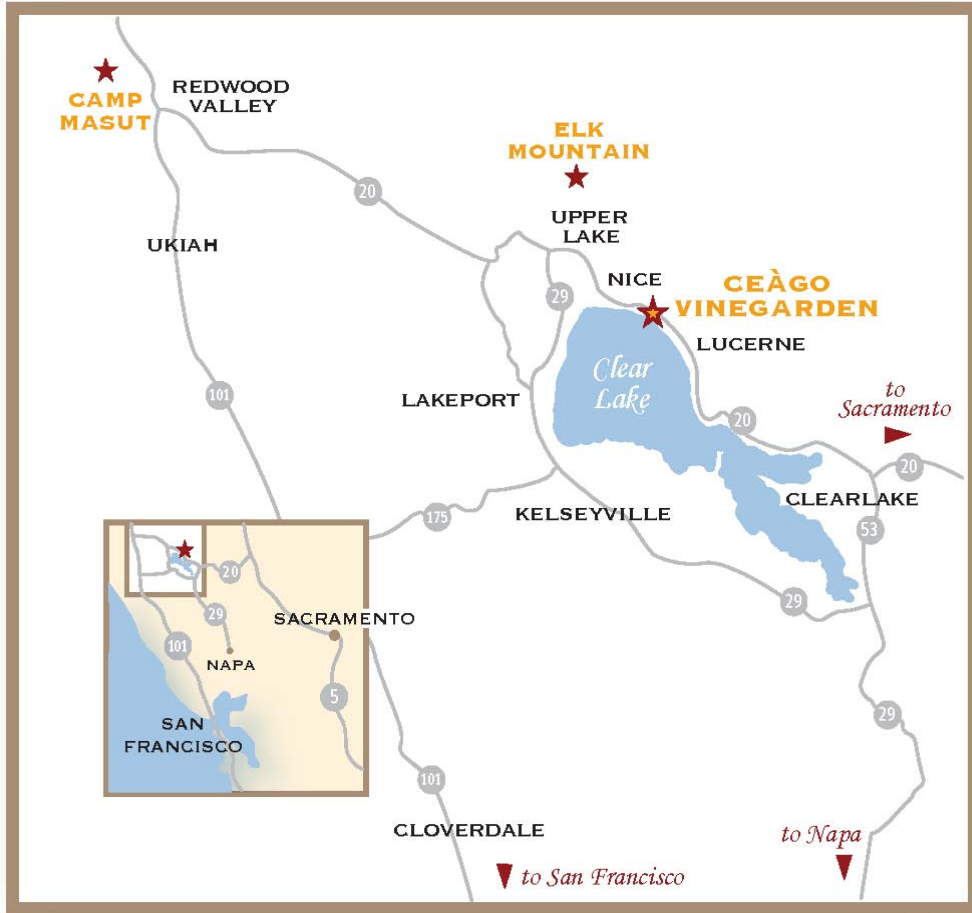

# Ceago Timeline

# Locations & Estates

★ Ceago Vinegarden Estate Locations

*Ceago Vinegarden has grape growing properties in both Mendocino and Lake Counties in Northern California. The appellations of these Counties, along with those of Napa and Sonoma Counties just to the south, are together recognized worldwide as one of the premier grape growing regions in the State of California. Our appellations are located just 2 hours north of San Francisco.*

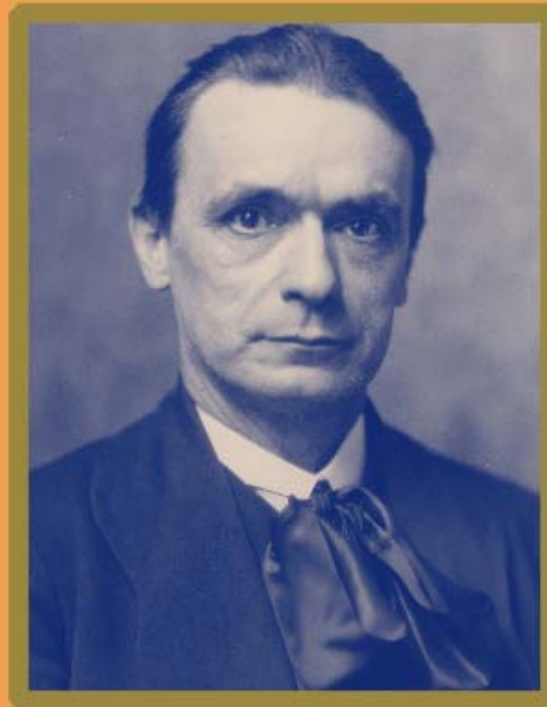

# Biodynamic Farming

## Biodynamic Farming Started with...

In 1924, Rudolf Steiner gave a series of 8 lectures, laying the foundation for a new way of thinking about the relationship of the earth and the formative forces of nature. He showed how the health of the soil, plants, and animals depends on reconnecting nature with the creative forces of the cosmos.

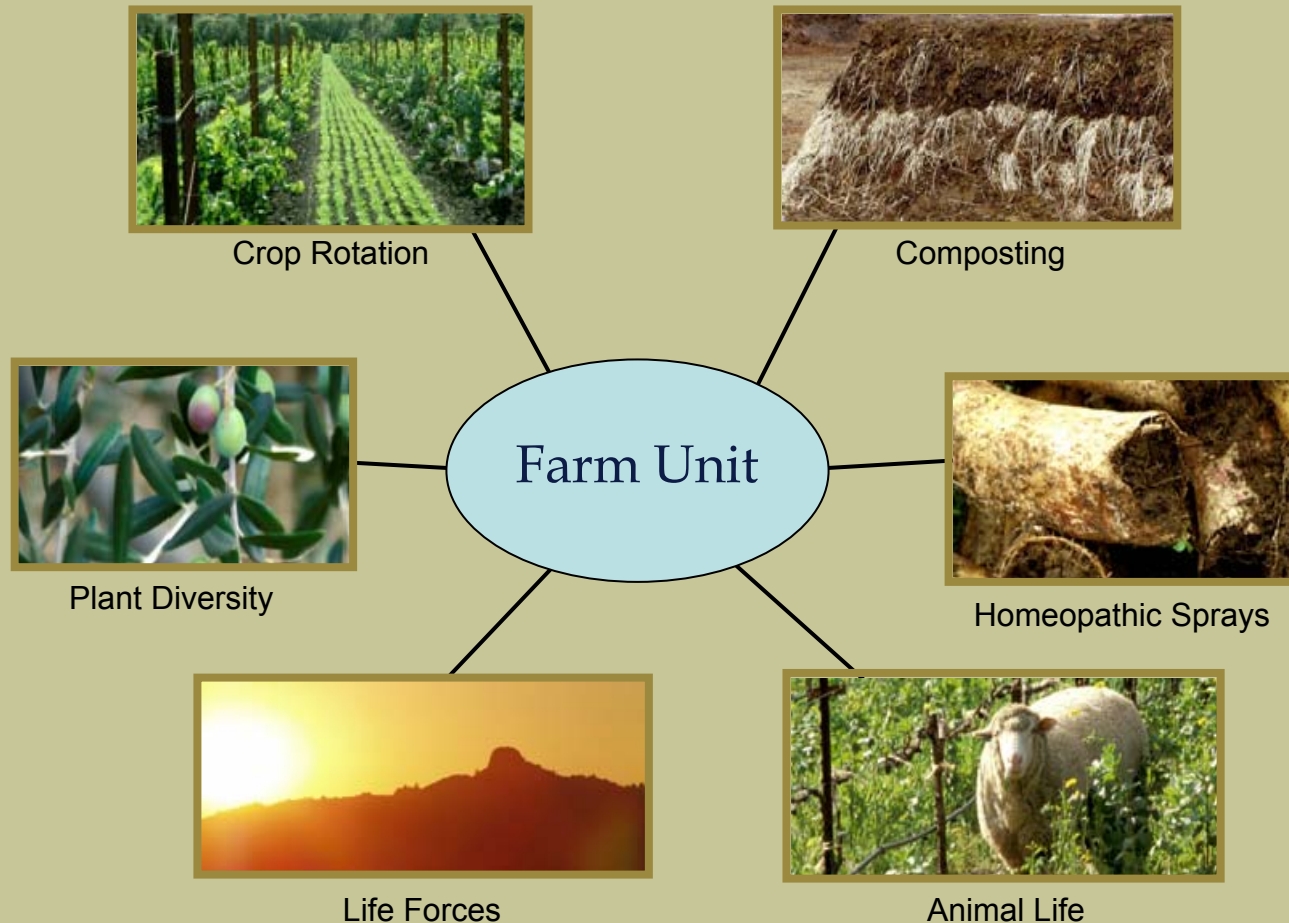

### Rudolf Steiner

*Biodynamic farming is the oldest non-chemical agriculture movement in the world, predating "organic" agriculture by 20 years.*

*Biodynamics is a science of life-forces, a recognition of the basic principles at work in nature, and an approach to agriculture which takes these principles into account to bring about balance and healing.*
